

## WRITE YOUR ANSWER TO THE QUESTION BELOW. DRAW A LINE WHEN YOU ARE THE "GUESSER." 1 2 3 4 5 6

YOUR NAME:	

## DIRECTIONS: BEST PLAYED WITH 5 - 12 TEAM MEMBERS

- 1. Write your name above to note this is your sheet.
- 2. Identify a moderator to read questions and answers.
- 3. Identify a "guesser" for the first round.
- 4. Have the moderator read the first question.
- 5. Everyone, except the "guesser", should write their answer next to "1" in the box. Guesser can write N/A or put a line through this box.
- 6. The moderator collects all the sheets with answers and reads them out loud one at a time and DOES NOT say who wrote the answer.
- 7. The guesser identifies who in the group gave each answer.
- 8.As the guesser identifies which answer goes to each person, the moderator hands that paper to who the guesser thought the answer belonged to, even if it's NOT their paper.
- 9.Once all answers are distributed back to players, those with answers identify if the paper they received was their answer sheet.
- 10. Repeat sequence, but have a new guesser for each question.

TIP: Take time to discuss answers among the group and expand on ideas when appropriate. Enjoy your Team Talk!
